OMNNI Associates, Inc. is an engineering and architectural firm based in Appleton, Wisconsin. The firm was founded in 1968 by two young professionals with a vision to develop a quality engineering and architectural firm. What began as a two-person partnership has now blossomed into a full-service, consulting firm providing creative and innovative engineering, architectural, and environmental solutions. For more than 50 years, OMNNI has been providing civil, site engineering, and surveying services. Designs are sensitive to the environment and incorporate "green" practices whenever possible to minimize impact and comply with regulatory requirements. Acquired by Westwood Professional Services on June 28, 2019, OMNNI's innovative designs continue to earn both state and national recognition for project excellence.
