WILLCO, Inc. is a painting, remodeling and construction contractor headquartered in Portland, Oregon. WILLCO's design team, master craftspeople, and tradesmen are ready to manage and complete large and small residential remodeling projects throughout the Portland Metro area. They work directly with homeowners in Portland, Lake Oswego, Beaverton, West Linn and elsewhere, completing design-build projects, whole home remodels, additions, dormers, kitchens, baths, historic renovations, attic and basement conversions, handyman repairs and more. Whether working on residential, commercial, or multi-family painting projects, WILLCO's journeyman-level painters produce high-quality results within budgets and deadlines and strive to exceed expectations. Their painters are prepared for every detail and project requirement, from the use of products that meet LEED specifications, to making incidental carpentry repairs. Also, they hold EPA and Oregon certifications to work on buildings that contain lead paint.
