Stoneyard, Inc., a company in Littleton, Massachusetts, specializes in reclaimed New England Fieldstone, a LEED-certified architectural natural stone building material. Natural Thin Stone Veneer products are made from a blend of weathered and aged natural stone, featuring the earth tones of states such as Connecticut, Massachusetts, and New Hampshire. The company delivers the traditional building stone of New England to a nationwide audience through its network of masonry dealers in over ten states. Stoneyard.com offers authentic and stylish natural stone veneers perfect for enhancing the appearance of any residential or commercial building. Its products are trusted by architects, designers, builders, and masons to add elegance to their projects. Its best-selling Boston Blend® Thin Stone Veneer is a custom blend of unique shapes and colors found only in New England. We offer nationwide delivery for homeowners, contractors, or architects looking to bring their vision to life. Explore this vast selection of natural thin-stone veneers today!
