Alliance Concrete Pumps, Inc. is a leading manufacturer and supplier of concrete pumps and parts, headquartered in Aldergrove, BC - Canada. The demand for the Alliance product is high because customers have seen the quality of the equipment and the support throughout the difficult times. Alliance designs their pumps with simplicity in mind, ensuring you can keep on pumping and allowing you to understand the equipment you maintain and operate efficiently. The company is an exclusive partnership between Jun Jin Heavy Industry of Seoul, South Korea, and the Directors of Alliance Concrete Pumps. Alliance Concrete Pumps is a proud American Concrete Pumping Association, The Concrete Pump Manufacturers Association, and the BC Ready-Mixed Concrete Association member.
