American Restoration, Inc. is a construction contracting company headquartered in Wylie, Texas, specializing in commercial building remediation. The company offers exterior building restorations, garage repairs, curtainwalls, historical buildings, below-grade waterproofing, catastrophic mitigation, debris removal, demolition, and building reconstruction. No matter the size or scope of your project, AR has the financial resources and the resident expertise to bring your building back to its original specifications. Be a part of the American Restoration story and become one of our many satisfied customers. Other services include roofing work, concrete, corrosion surveys, metal structure restorations, and church restoration.
