CDC Builders is a full-service general contractor and construction management company based in Miami, Florida. Established in 1992, CDC has positioned itself as the preferred full-service residential construction company for clients who premium on experience, quality, and craftsmanship. CDC has a reputation for building relationships and delivering results throughout Miami-Dade, Monroe, Broward, and Palm Beach counties. CDC Builders is a leading builder of high-end single-family residences and luxury interiors in South Florida's most sought-after neighborhoods. Its team of professionals has the knowledge and expertise to source and install the most demanding materials and cutting-edge systems. The firm's relationships with top-ranked subcontractors, master carpenters, and other accomplished craftspeople ensure the consistently high quality and timely performance that its clients expect and deserve. CDC's website features more details about its building services, project gallery, testimonials, and mission statement.
